# Inspired by the NYC

New York is the only city, whose atmosphere I knew before even going there. Nothing surprising, since I grew up on a myriad of films made about this city and music works dedicated to it!

In the architecture of New York there is something magical. For example, if we consider buildings separately, most of them are rather ugly. But all together they evoke architectural delight!

Park Avenue is home to the richest people in America, but I love this avenue for one building — Mies van der Rohe's skyscraper — the Seagram Building. A masterpiece of architecture!

Tribeca is one of my favorite areas of New York, with its lofts, facades which are decorated with fine cast-iron details, unusual interior shops and the area of Chinatown in the neighborhood, where food is always delicious.

Most of all I love New York in the middle of autumn. Such colors, as in Central Park, I did not see anywhere else.

New York is the city that I always want to return to.

“And New York is the most beautiful city in the world? It is not far from it. No urban night is like the night there... Squares after squares of flame, set up and cut into the aether. Here is our poetry, for we have pulled down the stars to our will”.
